

The world class safety
SVD-1100

**MODERN & ELEGANT
LIBRARY-STYLE VAULT DOOR**

Stainless Steel Swing Vault Door

SVD-1100 Vault door

A very slight difference makes a striking technological difference!

This library-style swing vault door SVD-1100 is small size, but has same functions as that of big vault doors. This vault door does not have a doorsill for the convenience. This very slight difference is the very expression of SHINJIN's technology policy for customer satisfaction.

Features

- Outside finishing : stainless steel or painting. (Color optional)
- Crossbar latch : Stainless steel circular bar, concealed locking system.
- Design : "Modern & Elegant", Ni-Cr coated round handle gives you smooth-touch and modern exterior view.

Options

Time lock

UL listed time lock with three movements.

Ventilator & Alarm

Air circulation and emergency alerts.

or

Daygate

The door can be fitted with Daygate, grilled type for day time use.

- Light Control : Micro-switch is fitted into the hinge to control internal lighting when door is open/close.
- Enhanced latch : Modularized 5-step safety device. (safety upgrade)
